INTELCAN COMMISSIONS ATM SYSTEM IN SURINAME

Intelcan has commissioned an Air Traffic Management System for the Department of Civil Aviation in Suriname.

Intelcan President and CEO Georges Ata states “the fifth generation of SKYCONTROL ATM meets the highest standards of Civil Aviation Authorities and Defence Organizations. The recent deployments of SKYSURV ATM in Europe, North America, Latin America, Africa and Asia demonstrate the confidence our Clients have for the product and for Intelcan.”

SKYCONTROL ATM features complete SDPS, FDPS functionalities such as CPDLC, AIDC, OLDI, ATFM and Billing Systems. It is used for Oceanic, Continental, Approach and Tower ATC and is based on the most advanced software platforms. SKYCONTROL ATM supports the new ICAO Flight Plan and offers ANSP, a hassle-free solution to manage this transition.
