INTELCAN SKYNAV ILS/DME COMMISSIONED IN EQUATORIAL GUINEA

Intelcan's **SKYNAV Instrument Landing System (ILS) and Distance Measuring Equipment (DME)** passed its Site Acceptance Test (SAT) at the Malabo International Airport in the Republic of Equatorial Guinea.

The SAT was followed by a successful flight-check completed by ASECNA (Agence pour la Sécurité de la Navigation Aérienne en Afrique et à Madagascar). It is a notable accomplishment as this is the second successful commissioning of Intelcan NAVAID equipment in the Republic of Equatorial Guinea, the first ILS/DME was installed in Mongomeyen. The equipment will be managed and maintained by the ASECNA engineers.

Intelcan's **SKYNAV ILS/DME** exceeds the highest standards for precise radio guidance in the aircraft's final approach and landing.

ABOUT INTELCAN

Intelcan is a Canadian CNS/ATM and Airport Infrastructure company that provides solutions allowing its customers to achieve the highest standard of safety and efficiency in aviation and airspace operations, at a competitive price. Integrating Intelcan's own SKY-Suite, fully compliant products or utilizing those from a diverse supplier network, Intelcan delivers cost-effective solutions, worldwide. Intelcan's airport infrastructure solutions range from the construction of air traffic control towers to complete airport implementation. Headquartered in Ottawa, Canada since its establishment in 1973, Intelcan has expanded globally to efficiently reach its vast client base and secure full life-cycle support.

SKY-SUITE FAMILY OF PRODUCTS

SKY/COM

- D-ATIS
- AFTN/AMHS
- Voice Recorder
- Data Recorder
- VCCS

SKY/NAV

- ILS
- DME
- Marker Beacon

SKY/SURV

- PSR S/L Band
- MSSR Mode S
- GS ADS-B
- GS MLAT
- V-Track

SKY/CONTROL

- Procedural ATM
- Radar ATM
- Tower EFS
- ASDE

SKY/SYNC

- Master clock

SKY/REMOTE

- RCMS
- Safety Management
