

Press Release
December 2, 2013

ORACLE TELECOMPUTING INC. IS NOW WHOLLY OWNED BY INTELCAN

Intelcan is pleased to announce the acquisition of Oracle Telecomputing Inc. (OTI) located in Carleton Place, Ontario, Canada. OTI is a leading supplier of mission critical Air Traffic Management, Air Defense Management, Aviation Information Management and Flight Billing Systems, as well as ATC Simulation & Training Systems.

Intelcan, a major shareholder of OTI since 2004, integrated OTI’s sophisticated technology into Intelcan’s **SKYCONTROL** Air Traffic Management (ATM) systems. **SKYCONTROL ATM** is a single ATM system used in the oceanic, en-route, approach and tower environments.

The longstanding and strong business relationship with OTI and its own successful track record with deployments in USA, Canada, United Kingdom and other countries mark this acquisition as a major development in Intelcan’s history. OTI is a four-time winner of NAV Canada’s Supplier of the Year Award and the only non-US company to receive the NASA “Turning Goals Into Reality” Award.

OTI brings extensive software development knowledge with specialization in the Air Traffic Management field. The **SKYCONTROL ATM** and numerous products within Intelcan’s **SKY-Suite** will benefit tremendously from this acquisition by sharing a common platform, making it easier for customers to upgrade to Intelcan products and seamlessly maintain Intelcan equipment.

ABOUT INTELCAN

Intelcan is a Canadian CNS/ATM and Airport Infrastructure company that provides solutions allowing its customers to achieve the highest standard of safety and efficiency in aviation and airspace operations, at a competitive price. Integrating Intelcan’s own SKY-Suite, fully compliant products or utilizing those from a diverse supplier network, Intelcan delivers cost-effective solutions, worldwide. Intelcan’s airport infrastructure solutions range from the construction of air traffic control towers to complete airport implementation. Headquartered in Ottawa, Canada since its establishment in 1973, Intelcan has expanded globally to efficiently reach its vast client base and secure full life-cycle support.

SKY-SUITE FAMILY OF PRODUCTS

SKY/COM

- D-ATIS
- AFTN/AMHS
- Voice Recorder
- Data Recorder
- VCCS

SKY/NAV

- ILS
- DME
- Marker Beacon

SKY/SURV

- PSR S/L Band
- MSSR Mode S
- GS ADS-B
- GS MLAT
- V-Track

SKY/CONTROL

- Procedural ATM
- Radar ATM
- Tower EFS
- ASDE

SKY/SYNC

- Master clock

SKY/REMOTE

- RCMS
- Safety Management
