16 July 2013

SUCCESSFUL COMMISSIONING FOR INTELCAN IN GUYANA

The High Frequency Radio Communications System supplied and installed by Intelcan at Cheddi Jagan International Airport in Guyana, successfully passed the SAT and became operational on the 24th of June. The High Frequency Radio Communications System allows for redundant long distance ground to air communications in the HF band, as required for the operation of the Guyana Area Control Center. The system includes SELCAL as requested by the ICAO regulations.

Over a four-year period, Intelcan has implemented four projects in Guyana. Intelcan has developed a proven track record with the modernization of the ATM system, using Intelcan’s **SKYCONTROL ATM** a single ATM system used in the oceanic, en-route, approach and tower environments. It covers all types of Air Traffic Control, thereby minimizing the cost of both training and maintenance, making it the most cost-effective solution in the market.

Intelcan utilized the **SKYNAV Product Suite** to replace outdated navigational equipment and also installed the **SKYCOM Voice Communications Control System** in Ogle Airport, Guyana.

Intelcan provided high quality products, excellent support plus timely delivery and is proud to have earned the confidence of the Guyana Civil Aviation Authority.

ABOUT INTELCAN

Intelcan is a Canadian CNS/ATM and Airport Infrastructure company that provides solutions allowing its customers to achieve the highest standard of safety and efficiency in aviation and airspace operations, at a competitive price. Integrating Intelcan’s own SKY-Suite, fully compliant products or utilizing those from a diverse supplier network, Intelcan delivers cost-effective solutions, worldwide. Intelcan’s airport infrastructure solutions range from the construction of air traffic control towers to complete airport implementation. Headquartered in Ottawa, Canada since its establishment in 1973, Intelcan has expanded globally to efficiently reach its vast client base and secure full life-cycle support.

SKY-SUITE FAMILY OF PRODUCTS

SKYCOM	SKYNAV	SKYSURV	SKYCONTROL	SKYSYNC	SKYREMOTE
