Celebrating 40 Years Of Providing Solutions That Take Flight

Press Announcement

4 March 2014

INTELCAN-PANSA SIGN CONTRACT FOR HIGH POWER DME

Intelcan signed a contract for the design, supply, installation, operation and maintenance of the **SKYNAV** High Power Distance Measuring Equipment (DME) for Nowy Targ International Airport in Poland.

Intelcan continues to expand in the European market with its own the **SKYNAV** products. This is the fourth DME that Intelcan will install in Poland.

The SKNAV DME N9000 contains flexible configurations that offer: Single and Dual transponder and monitoring, Cold or Hot Standby configuration and Omni-Directional or Unidirectional Antenna systems.

ABOUT INTELCAN

Intelcan is a Canadian CNS/ATM and Airport Infrastructure company that provides solutions allowing its customers to achieve the highest standard of safety and efficiency in aviation and airspace operations, at a competitive price. Integrating Intelcan's own SKY-Suite, fully compliant products or utilizing those from a diverse supplier network, Intelcan delivers cost-effective solutions, worldwide. Intelcan's airport infrastructure solutions range from the construction of air traffic control towers to complete airport implementation. Headquartered in Ottawa, Canada since its establishment in 1973, Intelcan has expanded globally to efficiently reach its vast client base and secure full life-cycle support.
