Intelcan signs a contract with Ministry of Defense of the Republic of Bulgaria for maintenance of software installed at Graf Ignatievo and Krumovo Airports

Ottawa, ON, Canada – December 18th, 2006 - Intelcan Technosystems Inc, Ottawa, Canada, signed a three year maintenance contract with the Ministry of Defense of the Republic of Bulgaria. The contract stipulates after-warranty maintenance for Air Traffic Control systems installed of at Graf Ignatievo and Krumovo Airports.

Intelcan's Executive VP and COO, Zvi Glanz, stated "Intelcan is proud to have the confidence of the client in Bulgaria. The extension of the maintenance service contract is a clear indication that our client is happy with the quality of service that Intelcan is providing."

Intelcan signed the original contract with the Bulgarian Ministry of Defense for the installation of Air Traffic Control Systems in 2002.

The contract will provide maintenance for Intelcan's RDPS/FDPS, AMSS, AFTN and MMI software installed at Graf Ignatievo and Krumovo Airports. Intelcan CEO, Max Rutherford, stated "this contract brings them under our comprehensive customer support umbrella, which includes 24-hour telephone and e-mail technical support in addition to software patches, fixes, and updates.
